

BP4LR - Recycled Polyethylene Spill Pallet

Rotationally moulded using recycled polyethylene and designed to accommodate 4 x 205ltr drums this low profile spill pallet (only available in black) has a removable plastic grid for easy access to clean the sump.

The polyethylene pallet is fitted with fork pockets to help with moving the pallet (we do not advise this is done when laden as the drums could slide off, or if unevenly loaded it could damage the spill pallet).

SPECIFICATION

Overall size	1280mm L x 1285mm W x 275mm H
N° of containers	4 x 205ltr
Sump capacity	230ltr
Colour	Black
Tare weight	29kg
UDL	1250kg
